

On-line Table

Children's sense of tallness correlated with SAT and measured height divided by sense of appropriate height.

Child		Child indicated that their height was not appropriate.		Child indicated that their height was appropriate.	
		SAT	Height SDS	SAT	Height SDS
Baseline	Correlation	.109	.129	-.089	-.266
	N	47	47	25	27
3 months	Correlation	.147	.150	.016	-.092
	N	31	32	42	44
12 months	Correlation	.063	.542**	-.004	.178
	N	29	29	51	55
24 months	Correlation	.292	.447**	.198	.136
	N	33	33	55	55

** Correlation is significant at the 0.01 level (2-tailed).
